Leon Silva

Software Quality Engineer deputed at SyscoLabs
Colombo, Western Province, Sri Lanka

Summary

Experienced QA Engineer with a proven track specializing in test automation. Proficient in Selenium and Java, I bring a solid foundation to quality assurance. Keen on staying at the forefront of the industry, I'm not only dedicated to mastering current tools but also enthusiastic about exploring and adopting new technologies in both QA and Software development. Committed to delivering top-notch solutions, I am passionate about continuous learning and leveraging emerging tools to enhance efficiency and quality in software development.
